ASTONISH, NOT JUST SATISFY

Softek International Inc. partners with government agencies to deliver mission-focused IT services that strengthen security and improve performance, with measurable results.

We tackle complex challenges with disciplined execution and deliver outcomes agencies can trust.

Softek is an SBA Certified, 8(a) Woman-Owned Small Business (WOSB), with CMMI & ISO certs, and a DCAA audited accounting system. We bring agility, innovation, and accountability to every engagement—building long-term partnerships through consistent, accountable performance. SOFITC3 is an SBA MPA Joint Venture, with Softek International, Inc. as the Managing Partner and FEDITC as the Mentor.

Our mission is simple: Astonish, not just Satisfy.

Our Core Values: Innovation | Respect | Hire the Best | Trust | Work Life Balance

OUR SERVICES

We are unwavering in our commitment to deliver solutions that transcend expectations, supercharge efficiency, and drive remarkable enterprise outcomes.

Softek provides Cybersecurity, Cloud, Digital Transformation, and NOC/SOC Management services -- from planning through execution. Our solutions align to mission priorities and deliver lasting value. We provide the IT capabilities government organizations need to operate effectively and securely. We do Zero Trust implementation, RMF/ATO acceleration, secure cloud migration and modernization, and hybrid network operations.

Cybersecurity Services

Risk-based protection and compliance support

FISMA, NIST 800-53/171, RMF compliance; Pen Testing & Red Team Support; SOC Operations; Vulnerability Management; Zero Trust Architecture & Implementation; Security Engineering Support Services (Documentation & Roadmaps)

Cloud Services

Secure migration and cloud optimization

Cloud Operations & DevSecOps; Cloud Security (policy, access, data, app, network); Cloud-native Service Management; Cloud Migration

Digital Transformation

Modernizing systems and processes to improve outcomes

Technology integration & implementation; Human-centered UX design; Federal enterprise architecture (DoDAF); ITSM modernization

Network Operations Management

Proactive managing and governing the network end-to-end

NOC operations (24x7); Network monitoring & optimization; Network security engineering; Performance management & troubleshooting

WHY PROCURE WITH SOFTEK INTERNATIONAL

We help Federal agencies accomplish mission needs, while reducing operational risk and modernizing securely.

What sets us apart is our ability to get systems authorized and operating faster through repeatable compliance automation and integrated security operations. Our teams are clearance-ready and have successfully supported mission systems in regulated Federal environments.

We deliver . . .

- **Proven DHS/CISA delivery track record**
- **Integrated cyber + cloud + ops model**
- **Rapid surge staffing capability**
- **CMMI / ISO / ITIL aligned processes**

RESULTS in these Benefits: Accelerates mission delivery, Reduces acquisition risk and protest exposure, Enables rapid, compliant execution, Meets EDWOSB and small business objectives, Delivers best value through speed, certainty, and proven performance.

OUR CUSTOMERS / CASE STUDIES

Softek's customers include, e.g., DHS CISA; DOD DHA; DOD DISA; DOD USAF; HHS CDC, NASA, etc.

DHS CISA - Digital Transformation Support Services (DTSS) BPA

- Delivers enterprise IT modernization and digital transformation services including, cybersecurity, cloud and infrastructure, data/analytics, DevSecOps, digital solution development, and IT operations support.

DHS OCIO CISOD – Risk Management & Assessment Support Services (RMAS)

- Delivered cybersecurity risk management, authorization oversight, compliance audits, and security assessments across DHS Headquarters and tenant systems. Softek supported diverse architectures, platforms, and tools to strengthen governance and compliance. Impact: Improved risk visibility, strengthened cybersecurity governance, and ensured systems met federal and DHS security requirements.

DHS OCIO HSEN – Tier 3 Engineering & Architecture Services

- Provided enterprise, systems, network, and cybersecurity engineering support to DHS's Enterprise Engineering Division for the HSEN and RTIC programs. Softek supported SOC operations, cybersecurity tool architecture, and enterprise infrastructure modernization. Impact: Increased operational efficiency, strengthened security operations, and ensured reliable expansion and protection of DHS enterprise networks and national assets.

DOD Army CECOM - Army Unified ERP

- Delivered Unified ERP Capability Support Services, as a subcontractor to Accenture, achieving Army operational efficiencies, cost savings, and improved readiness and capability support through a consolidated enterprise services model.

DOD DISA CTO – Enterprise Architecture & IT Management Governance Support

- Provided enterprise architecture and ITSM governance support to DISA's CTO organization, advising leadership, improving ITSM processes, and supporting automation and integration strategies. Impact: Increased service management efficiency, strengthened enterprise alignment, and enabled reliable delivery of integrated global IT services supporting combat operations.

DIFFERENTIATORS

Softek applies structured, metrics-driven management and workforce stability to reduce transition, operational, and performance risk. We deliver IT architects and cybersecurity resources at the “speed of need” . . . your need.

ALWAYS-ON MISSION

We optimize availability, latency, and resilience – with security as a reliability feature.

ZT YOU CAN MEASURE

We implement measurable Zero Trust progress, not just strategy deck.

ONE OPS TEAM, ONE VIEW

We integrate security + network + cloud operations into one mission assurance engine.

SECURE CLOUD, FAST

We get systems modernized and authorized faster – with less risk.

SECURE-BY-DESIGN DELIVERY

We modernize apps, data, and workflows while embedding security and compliance from day one.

DAY ONE, READY

We show up ready: cleared staff, repeatable delivery, low operational risk.

LET'S START A CONVERSATION
